

Objective

Dedicated and detail-oriented junior pursuing a Bachelor's degree in Computer Science with a minor in Economics, seeking a Data Analyst internship. Eager to leverage analytical skills and technical knowledge to support data-driven decision-making and enhance program outcomes.

Education

Bachelor of Arts in Computer Science, Minor in Economics

Queens College, City University of New York, Expected Graduation: May 2026

Relevant Coursework

- Object-Oriented Programming
- Data Structures and Algorithms
- Discrete Structures
- Computer Organization and Assembly Language

Technical Skills

- Programming Languages: Python, SQL, Java, C++
- Data Analysis Tools: Microsoft Excel, Power BI (willing to learn)
- Frameworks/Libraries: VPython, threading
- Software Proficiency: Microsoft Office Suite (Word, Excel, Outlook, Teams)

Projects

- 3D Marble Simulation using VPython
 - Developed a 3D simulation of marble movement using physics-based calculations and real-time visualization. Enhanced understanding of physics principles while applying programming skills to create interactive simulations.
- Others available upon Request

Professional Work Experience

- Shift Supervisor
 - Neighborhood Association for Inter-Cultural Affairs, Inc. (NAICA)
 - Oversaw daily operations and manage staff, ensuring compliance with organizational goals in a nonprofit focused on homelessness prevention.
 - Developed strong leadership and multitasking skills, enhancing team productivity through effective communication and collaboration.
- Extern – Web3 Security Data Analytics Externship
 - Extern | Remote | October 2024
 - Conducted detailed analysis and labeling of smart contract vulnerabilities, enhancing skills in data categorization and risk assessment.
 - Validated peers' data labels to ensure accuracy and reliability of datasets, improving the quality of risk analysis.
 - Performed frequency and correlation analysis of risk tags to identify prevalent vulnerabilities and their associations using statistical tools.
 - Applied unsupervised machine learning techniques for cluster analysis, discovering patterns and profiling risks among smart contracts effectively.
- Tutor
 - AI LearningPlus
 - Taught object-oriented programming to middle and high school students, fostering understanding of fundamental programming concepts and problem-solving skills.

Languages

- English (Fluent)
- Yoruba (Fluent)

Interests

Learning, Critical Thinking, Gym & Soccer.
